## **DETAILED ACTION**

1. Claims 1-5 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, the prior art of record (McCarty et al.) is drawn to the transmission and reception of stereophonic audio signals from an audio input source via infrared techniques including an infrared transmitter and receiver which includes photodiodes for transmitting and receiving signals. However, the prior art of record fails to specifically disclose or fairly suggest a preamplifier, a infrared RF emitter, an infrared channel controller and an photodiode emitting-medium, therein as claimed, for controlling crosstalk disturbance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
